

Design the algorithm for a program that find the greatest number within given 3 numbers by the user.

START PROGRAM: What is the greatest?

DECLARE
x = 0, n1, n2, n3

PRINT "What are your numbers?"
GET n1, n2, n3

IF n1 > n2 THEN
x = n1
ELSE
x = n2

IF x > n3 THEN
PRINT "The greatest number is ", x
ELSE
PRINT "The greatest number is ", n3

END PROGRAM
